

CURRICULUM VITAE

Name: GIURGINCA ANDREI

Date of birth: 1971 December 12

Nationality: Romanian

Education:

1990-1995 - Bucharest University, Faculty of Biology, Bachelor of science

1995 – 1996 - Bucharest University, Faculty of Biology, M. Sc. in Animal Taxonomy

1997 – 2004 - Bucharest University, Ph.D. – Biology (zoology specialisation)

Present position: Senior researcher III in Biospeleology and Edaphobiology Compartment of Speleological Institute in Bucharest.

Scientific career:

- 1996 – 2001- Research Assistant, Institute of Speleology “Emile Racovitza”, Biospeleolohy and Soil Biology Department.
- 2001 – 2004 - Scientific Researcher, Institute of Speleology “Emile Racovitza”, Biospeleolohy and Soil Biology Department.
- 2005 – present - Scientific researcher III, Institute of Speleology “Emile Racovitza”, Biospeleolohy and Soil Biology Department.

Foreign Languages: English, French.

Research interests: Systematic, taxonomic, ecologic and biogeographic study of the Oniscidea, Diplopoda and Aves.

Key qualifications: Systematic, taxonomic, ecologic and biogeographic study of the Oniscidea, Diplopoda and Aves.

Membership of professional bodies:

1. Romanian Society of Ornithology and Bird Protection : 1993 - 2006
2. British Myriapod and Isopod Group : 2003 - 2006
3. International Society for Subterranean Biology : 2000 - 2006
4. Romanian Society of Speleology and Karstology: 2000 - 2006

Research projects / grants:

Grant Romanian Academy : “Subterranean ecosystems from the Movile (Mangalia) area with emphasis on the geochemical relations at the level of the subterranean aquifer and the sources of organic matter”- participant- 1996 – 1998.

Grant A.N.S.T.I. nr. 4117: “Guaniferous caves from Romania. Mapping of the bat colonies, zoodiversity and the informational significance of the guano deposits from Banat”- participant- 1998 – 1999.

Grant Romanian Academy no. 429: “Atlas of Chiroptera from the Romanian caves. Researches concerning the Chiroptera and the guanicolous fauna from the caves of Dobrogea”- participant – 1999.

Grant A.N.S.T.I.: no. 5102: “Particularități structurale și funcționale ale ecosistemelor subterane din carstul de tip Movile (cu referire specială asupra conservării unor specii relictice și a ipotezei existenței subrefugiului glaciar euxinic)” – participant – 1999.

Grant Romanian Academy no. 12: „Studies on the evolution of the isopod crustaceans (phylogeny, adaptation, convergence, reversion). Special significance of the subterranean relict species” – participant – 1999-2000.

Grant Romanian Academy no. 121: „Studies on the Superior Crustacea (Eumalacostraca)”- participant – 2001-2002.

Grant CNCSIS no.72: „Studii asupra asociațiilor interspecifice de Bembidiini (Coleoptera, Carabidae) - un grup cu specii ripicole importante în evaluarea biodiversității și gradului de poluare a bazinelor hidrografice din Romania”- participant - 2002-2004

Grant Romanian Academy no. 34: „Systematic, zoogeographic and ecologic study of the Israel Chilopoda” – participant - 2003-2004.

Grant Romanian Academy no. 79: „Endemites and relicts in the Isopoda and Diplopoda fauna of Romania in comparison with the faunas from the Balcanic Peninsula and Near East. Biogeographical and phylogenetic significance. Protection proposals.” – participant, 2003-2004.

Grant CNCSIS no.449: “Biodiversity of the subterranean superficial environment from the Semenic – Cheile Carașului National Park”- participant - 2003-2004

Grant Romanian Academy no. 71: „Phylogenetic researches in Arthropoda based on morpho-anatomic structures and cladistic methods. Special significance of the subterranean forms.” – coordinator – 2005 - 2006.

Publications:

Contributions to Volumes:

1.Atlasul pasarilor clocitoare din Romania. Coord: Munteanu D., Weber, P., A., Papadopol. Ed. Societatea Ornitologica Romana. 2002 (collaborator).

2. Lester R. Brown, Nicholas Lenssen, Hal Kane. Probleme globale ale omenirii. Semne vitale 1995. Tendințe care ne modelează viitorul. (coord. L. R. Brown). Editura Tehnică, București, 1996 (translator).
